

Phase One of the Ninth Stage: The Unity of Human Existence and the Birth of the Cosmic Human

- 1. Introduction:** The human essence as the **living axis of meaning**. Unity of existence is the mirror where Being becomes self-aware.
- 2. The Cosmic Human:** The human who **chooses to be human**, living as **meaning, not merely as survival**.
- 3. The Principle of the Chosen Humanity:** Authentic humanity is an **existential and moral choice**. An invitation to transcend the predatory circle.
- 4. The Law of Awakening:** (The first law of this stage). Every act of Mercy, Justice, or Trust is an **Ontological Revelation**, through which Being discloses itself as meaning.
- 5. Between Transcendence and Immanence:** Meaning unfolds **within the world through the journey of humanity itself**.
